

# *The Word expressed from 'our' Inner Aliveness*

**10am-4pm Sunday 2<sup>nd</sup> July 2017**

Silence births an Inner Aliveness which naturally births wise and compassionate action in the world... To have stillness without movement is an oxymoron so during the day we will look at ways of harnessing the fruits of silence to express our Word, our uniqueness and our authenticity for the relief of dis-ease in our neighbourhoods and towns. We'll move from spiritual practice to spiritual practical – knowing that it is both/and.

This day naturally flows on from Saturday and it will equally stand alone.
